

## Provider Communication

<b>Subject:</b> Nursing Home Crossover Claims for Outpatient Therapy Services	<b>Priority:</b> <b>High</b>
<b>Date:</b> January 10, 2005	<b>Message ID:</b> ACSBNR01102005_1

### *Dear Provider:*

Last weekend Nursing Home crossover claims for Outpatient Therapy Services were inadvertently released with a batch of crossovers that were previously in a suspended status. These claims are identified by type of bill 23x and 22x.

Georgia Medicaid still has an outstanding ticket for these claims, which has not been completed in order for us to process them correctly. As soon as the programming and testing has been completed and approved for Nursing Home Outpatient Therapy claims, we will reprocess all of the claims that denied in error.

Thank you for your continued participation in the Georgia Medicaid and PeachCare for Kids Programs.
